

TEREX ON-THE-JOB SKILLS ACCELERATOR

Program *Examples*

A program is a business problem Terex works on over time. An initiative is one behavior change effort inside a program, with one objective, one activity set, and one survey set. Activities are short tasks participants complete during the workday.

HOW TO READ THIS

Page 2 is the full timeline, Q1 2026 through Q1 2028.
Page 3 gives the objective for each named initiative.
Page 4 shows one initiative in full.

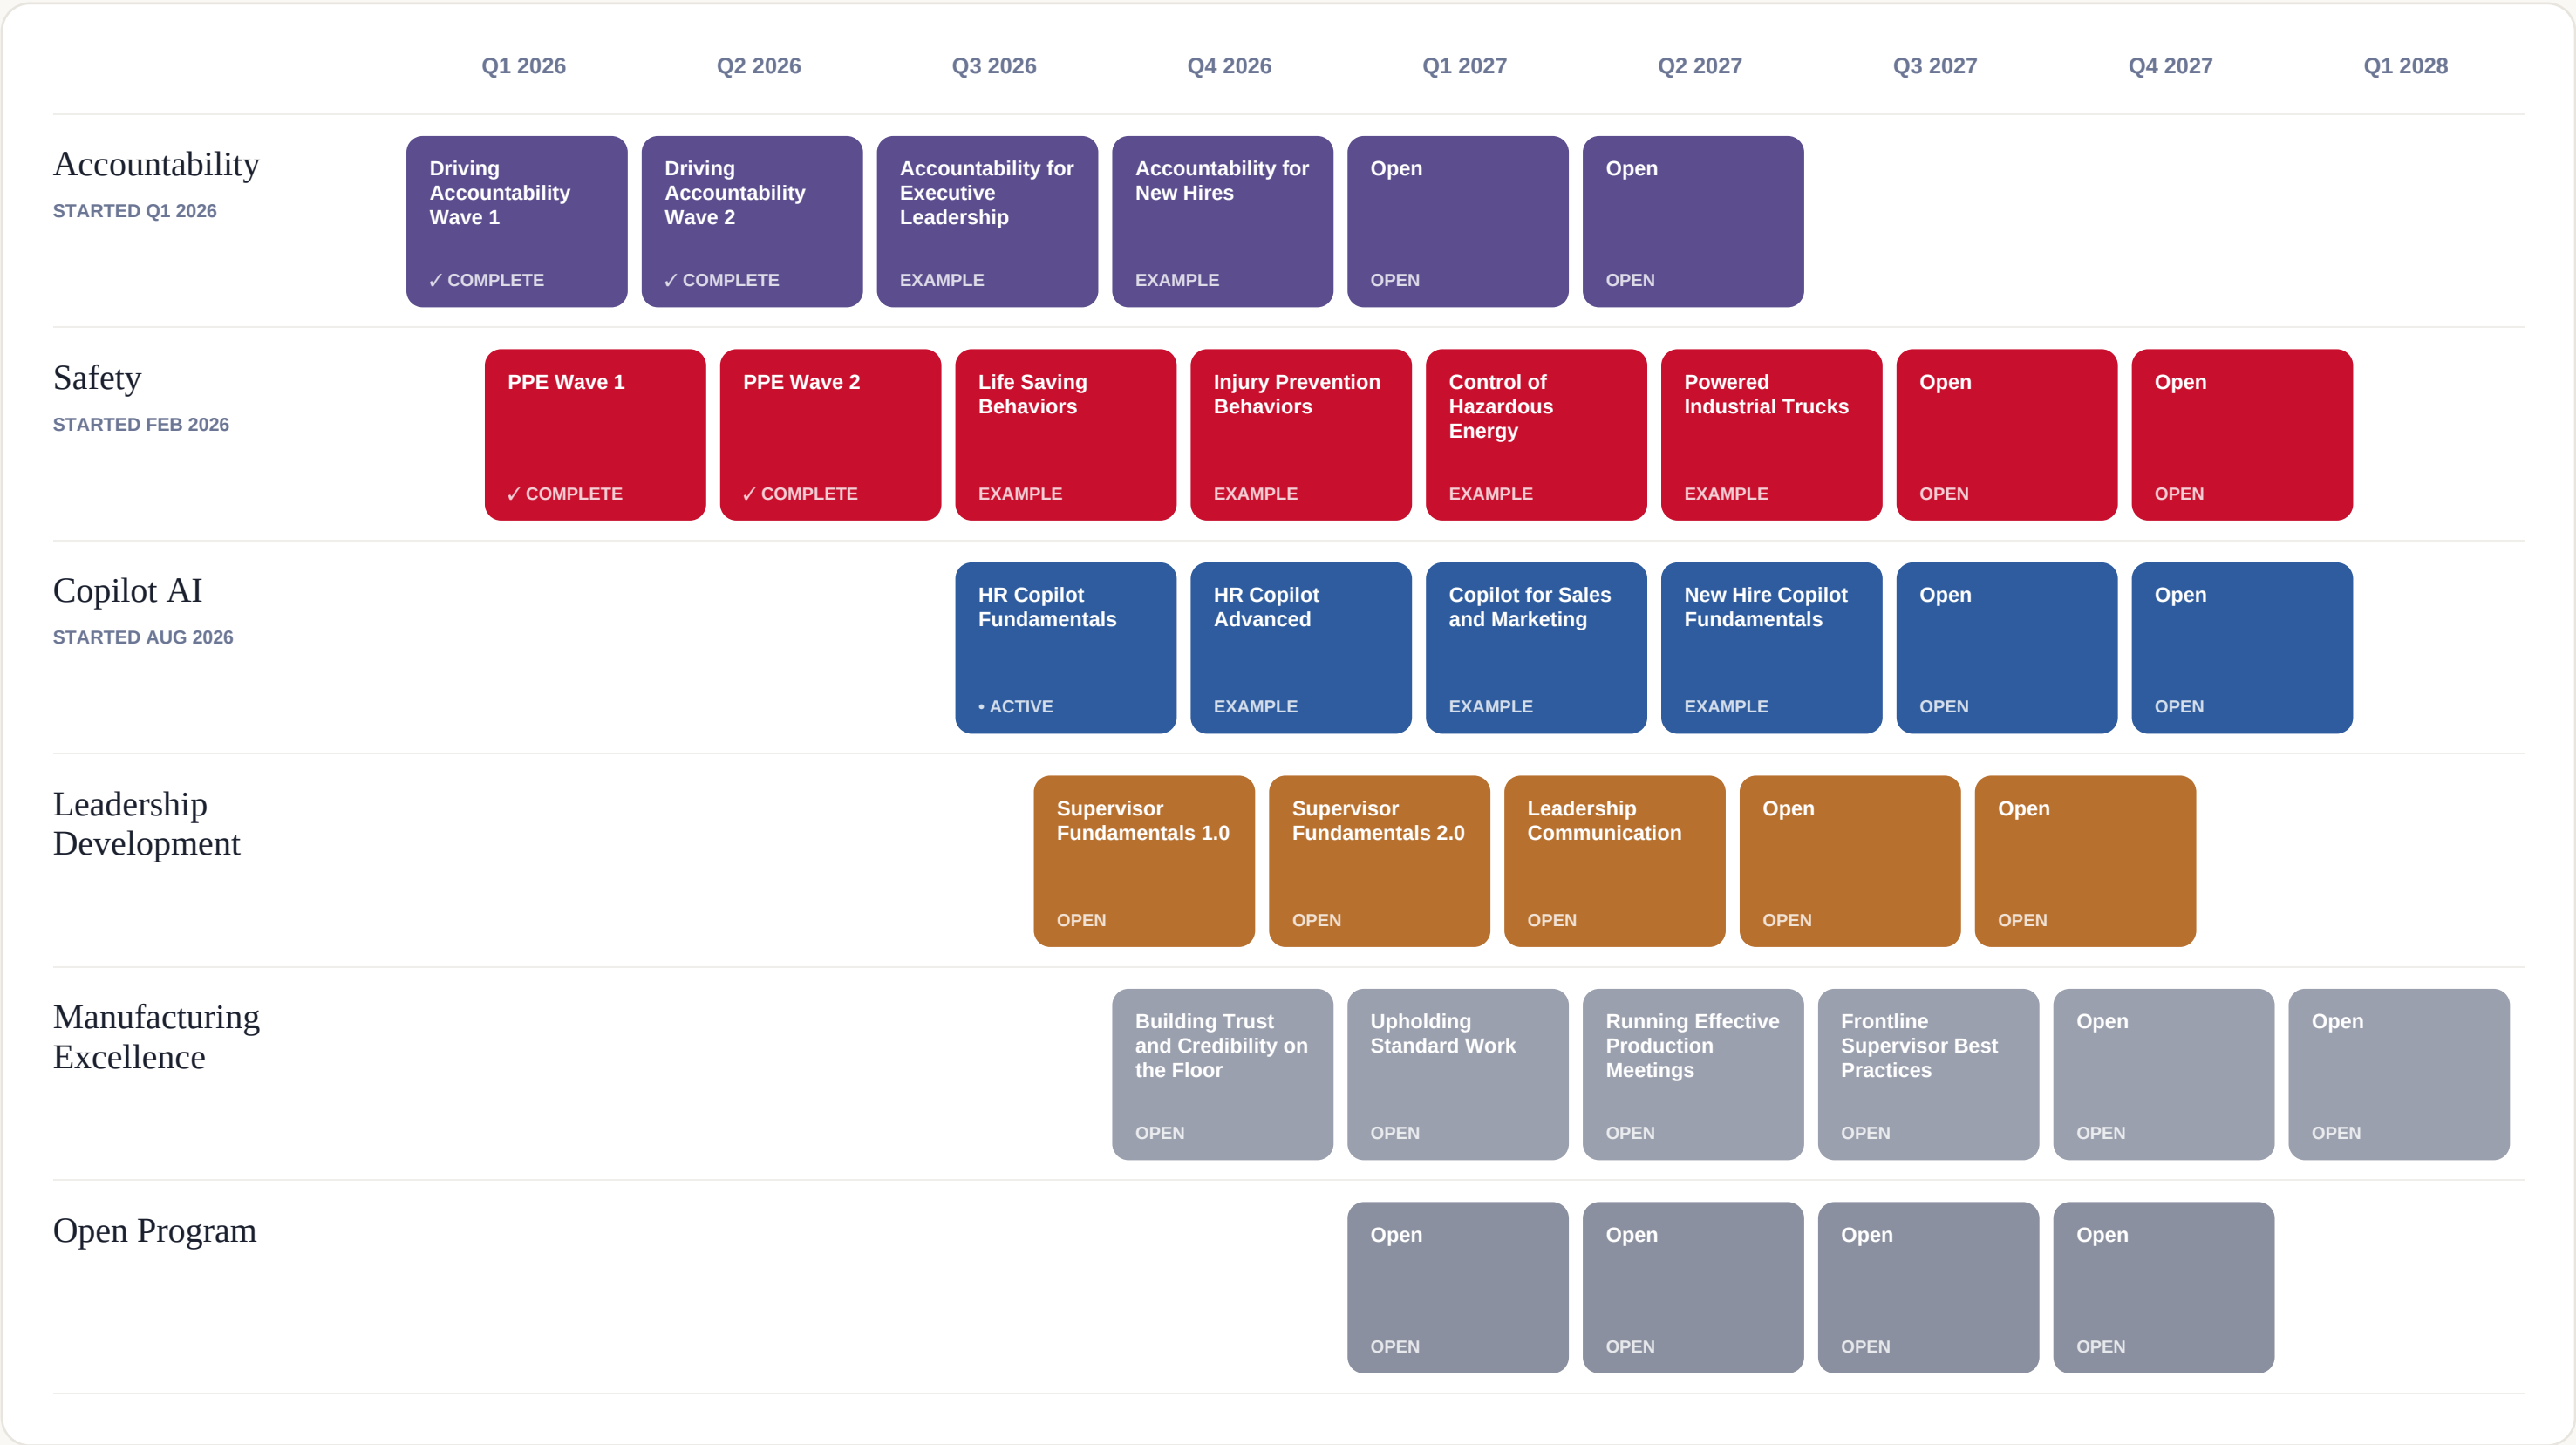

Each tile is one initiative. The label under the name states whether it is complete, active now, an example of what could run next, or an open slot.

STATUS

- COMPLETE**
ran and closed
- ACTIVE**
running now
- EXAMPLE**
could run next
- OPEN**
not yet named

PROGRAM LANES

Q1 2026 - Q1 2028

INITIATIVE DETAIL

Objectives by program

Accountability

Driving Accountability Wave 1 Senior leadership teams set specific commitments, make them visible to their teams, and follow through.	Q1 2026 COMPLETE
Driving Accountability Wave 2 Rerun of Driving Accountability to a second audience. Already in the Flint library, so no new build.	Q2 2026 COMPLETE
Accountability for Executive Leadership	Q3 2026 EXAMPLE
Accountability for New Hires	Q4 2026 EXAMPLE

Safety

PPE Wave 1 Supervisors model correct PPE use, set clear PPE expectations with their teams, and monitor compliance during shifts. <i>Outcome: Overall self-rating 5.77 to 7.32, +1.55 (+27%). N = 30 participants with both baseline and follow-up self-assessments, 1 to 10 scale. Model 6.42 to 7.80. Set Expectations 5.14 to 6.89. Monitor 5.75 to 7.28. All 11 survey items improved, none regressed.</i>	Feb - Apr 2026 COMPLETE
PPE Wave 2 Second cohort of Personal Protective Equipment across seven business units. Final report issued August 5, 2026.	May - Jul 2026 COMPLETE
Life Saving Behaviors The nine Life Saving Behaviors are mandatory for all team members. This initiative develops the supervisor behaviors that make them consistent, observable practice.	Aug - Oct 2026 EXAMPLE
Injury Prevention Behaviors Injury Prevention Behaviors address the risks that show up every day. This initiative builds the manager habit of recognizing and reinforcing them.	Nov 2026 - Jan 2027 EXAMPLE
Control of Hazardous Energy One of the 11 Serious Injury and Fatality Prevention Roadmaps. Scoped to the supervisor behaviors that determine whether the roadmap is lived or only documented.	Feb - Apr 2027 EXAMPLE
Powered Industrial Trucks One of the 11 Serious Injury and Fatality Prevention Roadmaps. Scoped to the supervisor behaviors that determine whether the roadmap is lived or only documented.	May - Jul 2027 EXAMPLE

Copilot AI

HR Copilot Fundamentals HR professionals use Microsoft Copilot on their own work. Launched August 18, 2026 to a volunteer cohort across US and Europe.	Aug - Oct 2026 ACTIVE

EXAMPLE INITIATIVE

SAFETY

Personal Protective Equipment, Wave 1

COMPLETE

Feb - Apr 2026

Supervisors model correct PPE use, set clear PPE expectations with their teams, and monitor compliance during shifts.

ACTIVITIES

- 01

Daily PPE huddle

Three-minute team check at shift start covering eyewear, gloves, and hearing protection.
- 02

End-of-shift equipment review

Structured review of equipment condition to surface degradation a walk-by inspection misses.
- 03

Field coaching prompt

When a violation is spotted, the coach supplies a consequence-framed script.
- 04

Weekly pattern reflection

Supervisor names one team-level pattern from the week and one intervention.

OUTCOME DATA

OVERALL SELF-RATING, BASELINE TO FOLLOW-UP

5.77 → 7.32 +1.55 (+27%)

N = 30 participants with both baseline and follow-up self-assessments. 1 to 10 scale.

MODEL

6.42 → 7.80
+1.38 (+22%)

SET EXPECTATIONS

5.14 → 6.89
+1.74 (+34%)

MONITOR

5.75 → 7.28
+1.53 (+27%)

Set Expectations started lowest and moved most. All 11 survey items improved. None regressed.
